Index Graph

Teacher Growth Measures and Standard Errors

Measure	Standard Error	Index	Level
	2.5	-0.05	Average
	1.5	5.99	Most Effective
	2.2	-0.91	Average

ate, longitudinal analyses using multiple subjects, grades, and years of data for each student.

2025: Average

Average: Evidence that the teacher's students made progress similar to the Growth Standard (the teacher's index is between -1 and 1)

2025 State Distribution of Teachers

Level	Number of Teachers
Most Effective	201
Above Average	81
Average	89
Approaching Average	63
Least Effective	231

Teacher growth measures and standard errors are presented in the chart to the left. This allows the teacher to compare his or her student's growth to the growth standard.

TEACHING WITH EVAAS

EVAAS teacher level reports provide the data, but what are we doing with this data? The Teaching with EVAAS workshop is designed to address this question. Educators that have the foundational understanding of EVAAS reports are ready to take the reports beyond just understanding. In this session, participants will explore simulated data, interpret the data, and use a framework that will support future actions when analyzing teacher level reports upon the EVAAS release.

Questions? Contact: Kim K. Adams, kkadams@southernohioesc.org

Intended Audience: Building Administrators, Curriculum Directors, Special Education Coordinators, Teachers with EVAAS Teacher Level Reports

Date: Friday, October 25, 2019 **Time:** 8:30 a.m.–3:30 p.m.

Location: Region 14 Hopewell Center, 5350 W New Market Rd, Hillsboro, OH 45133
