## Region 14 Early Childhood Literacy Network

Building children's literacy knowledge isn't always on the radar in busy early childhood centers! And when we do think of it, we feel like we can't possibly fit in another learning activity! The Region 14 Early Childhood Literacy Network will work to build your own knowledge and use it to increase children's knowledge within the normal framework of your day! You will be helping children be more "ready" for Kindergarten while being developmentally appropriate for all children, from birth through preschool, as well as increasing family engagement.
